Why India Needs GG Prime ?

GG Prime is a technology and business enablement program created by **Global Garner Sales Services Limited** which took more than 10 years, to help individuals and businesses adopt digital solutions at an affordable, standardized, and low-risk cost.

Why India Needs GG Prime ?

Many businesses delay adopting technology due to the high upfront costs of software, licence fees, implementation charges, training expenses, and ongoing maintenance therefore unable to face the competition so either showdown or slow death .

GG Prime is designed to reduce these barriers by providing access to a wide range of digital products, software, business services, and technology solutions within the Global Garner ecosystem.

The program enables users to experience and utilize these digital solutions before making larger business technology investments, helping them make informed decisions while accelerating their digital transformation.

**Most companies solve one business problem. GG Prime is building the world's first truly integrated business ecosystem that empowers every business
From a small retailer to a global enterprise.**

History of MLM

1934 — The Beginning

Nutriline started the first direct selling system in USA.

Distributors earned from:

- Their own sales
- Sales of people they introduced

1959 — Global Phenomenon

Two Nutrilite distributors launched **Amway** and made MLM a global phenomenon.

Initially the model worked very well.

Where the Problem Started

Over Priced Product

Products are **2x to 5x costlier** than regular market

Example comparisons seen in brands like Amway, Vestige etc.

Shift in Focus

Over time many companies shifted from **Product Driven** to **Recruitment Driven**

❏ Major Problem: **Unlimited Recruitment**

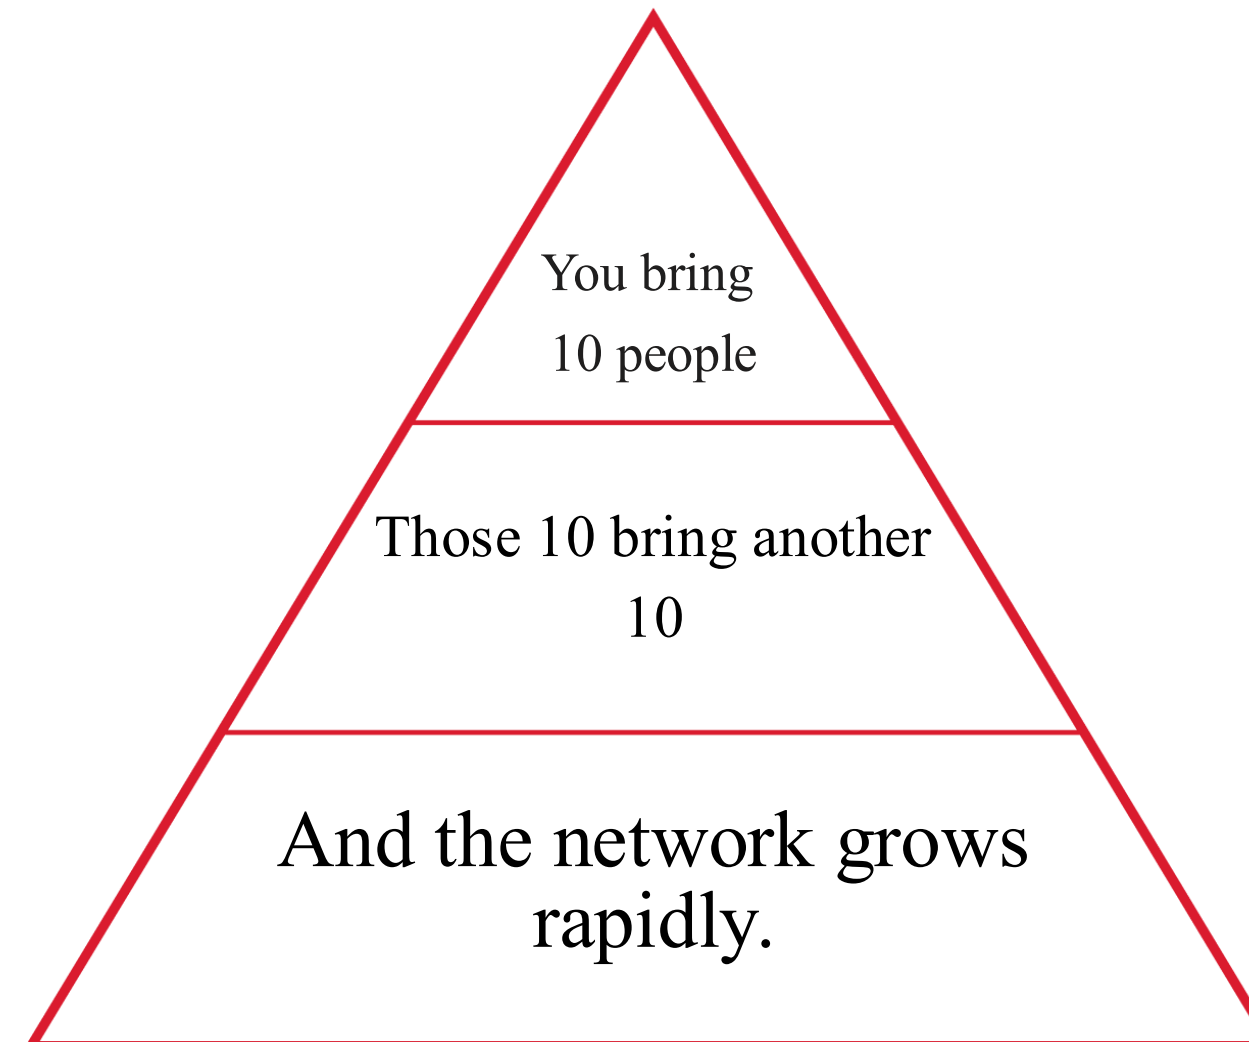

Income became dependent on bringing new people rather than real trade.

This gradually created a **pyramid structure**.

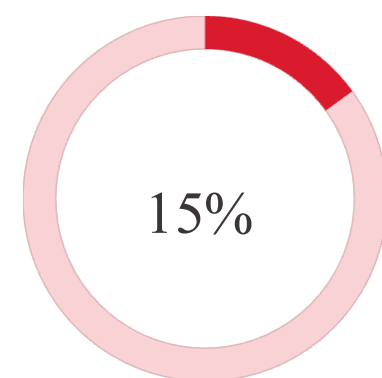

The Pyramid / Human Tagging Challenge

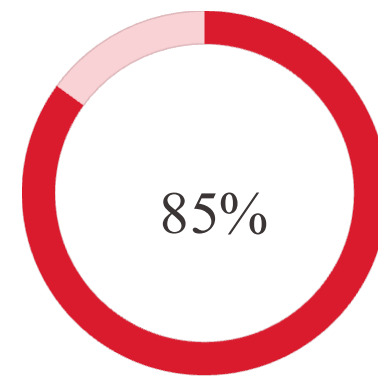

Typical MLM Growth Model:

But Mathematically:

Top Earners
Top 10–15% earn well

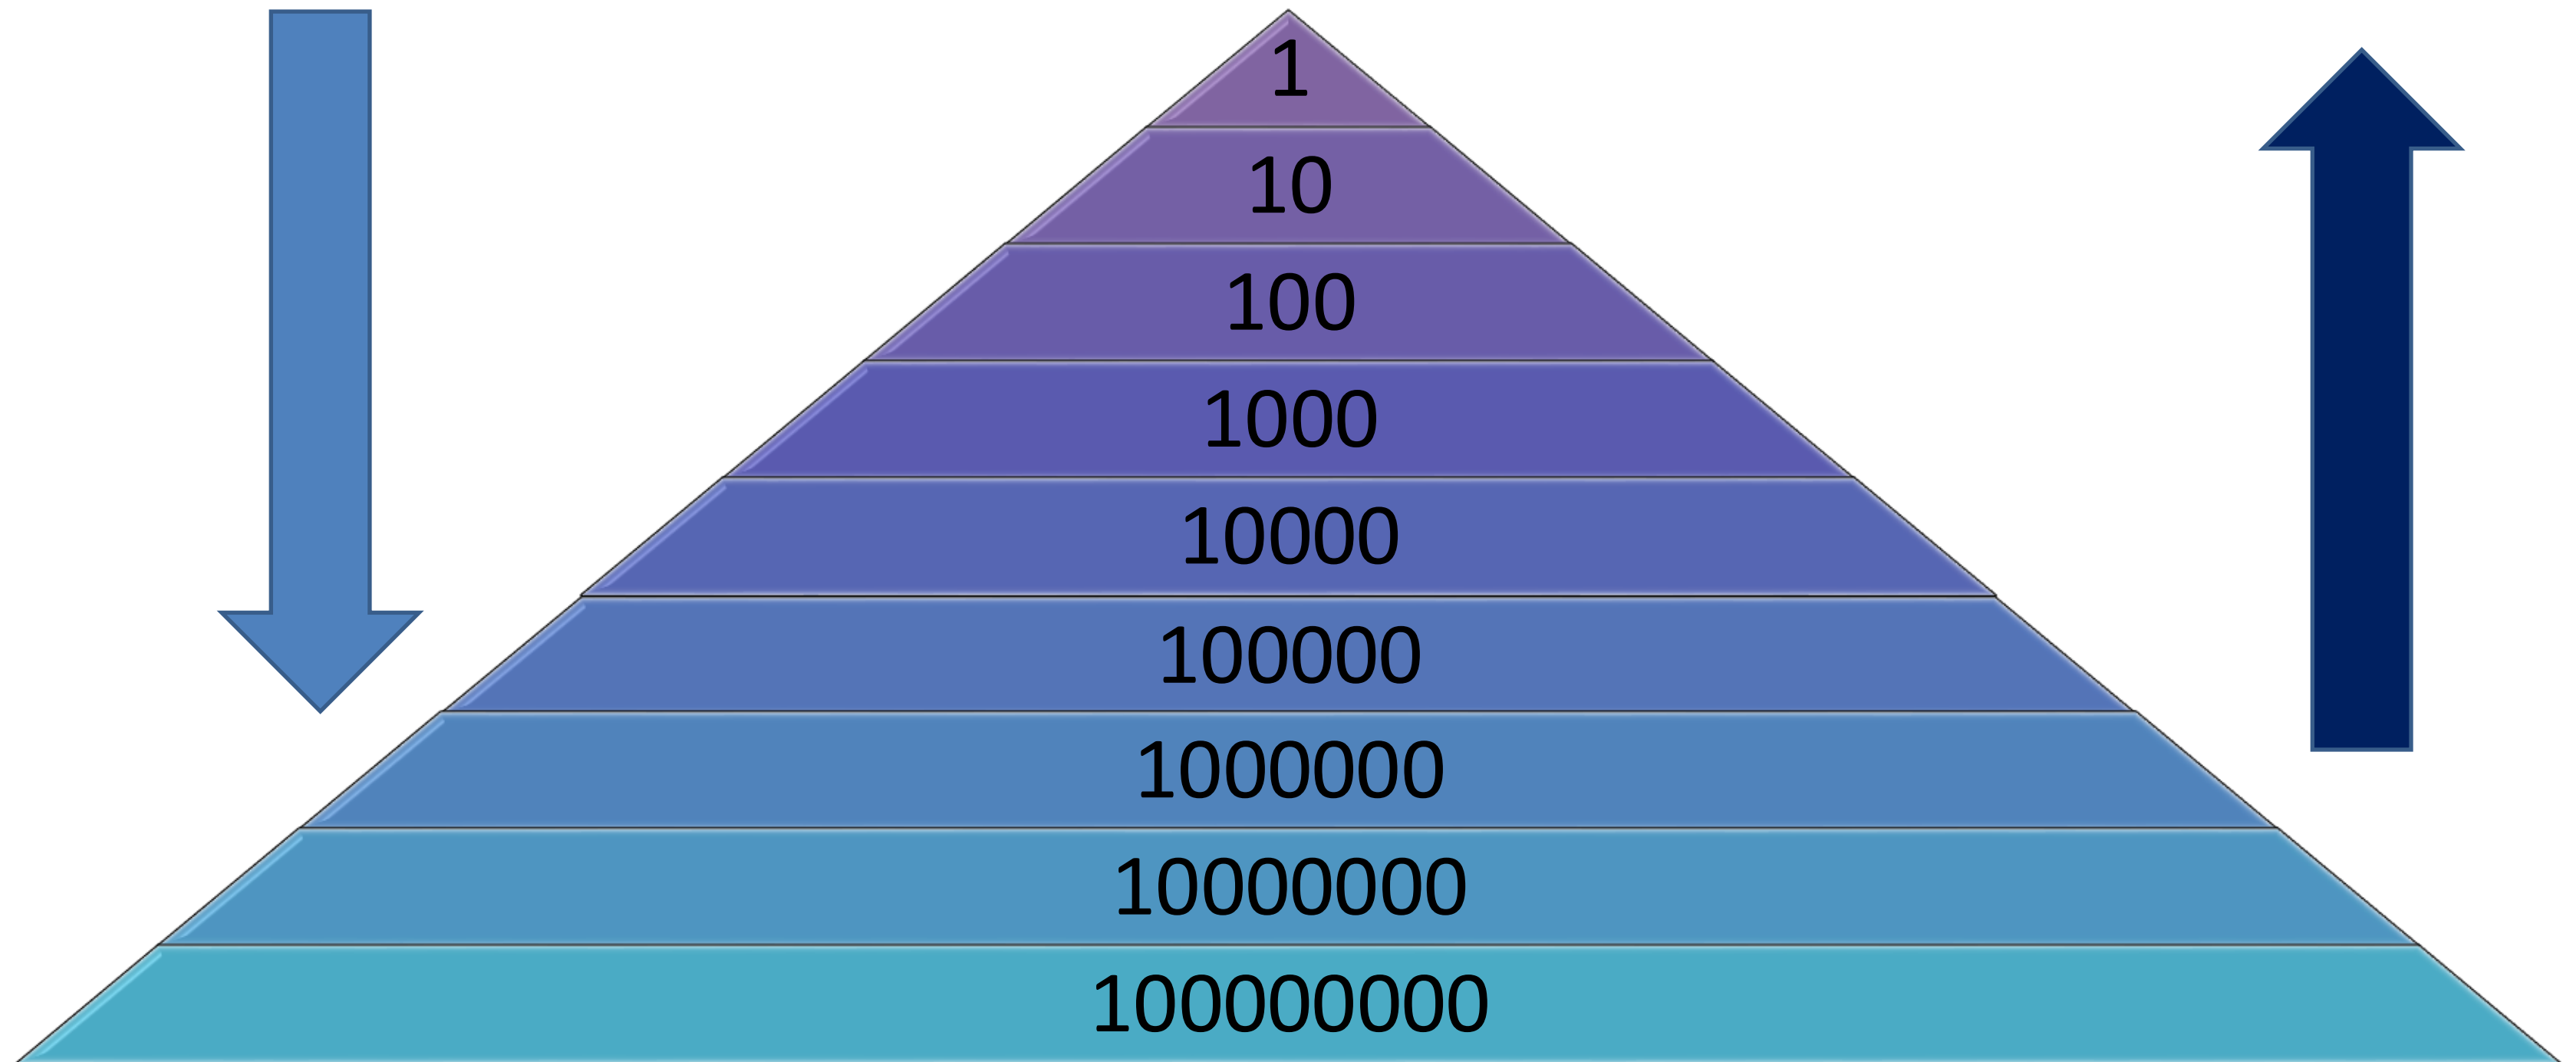

Struggle
Around 85% struggle

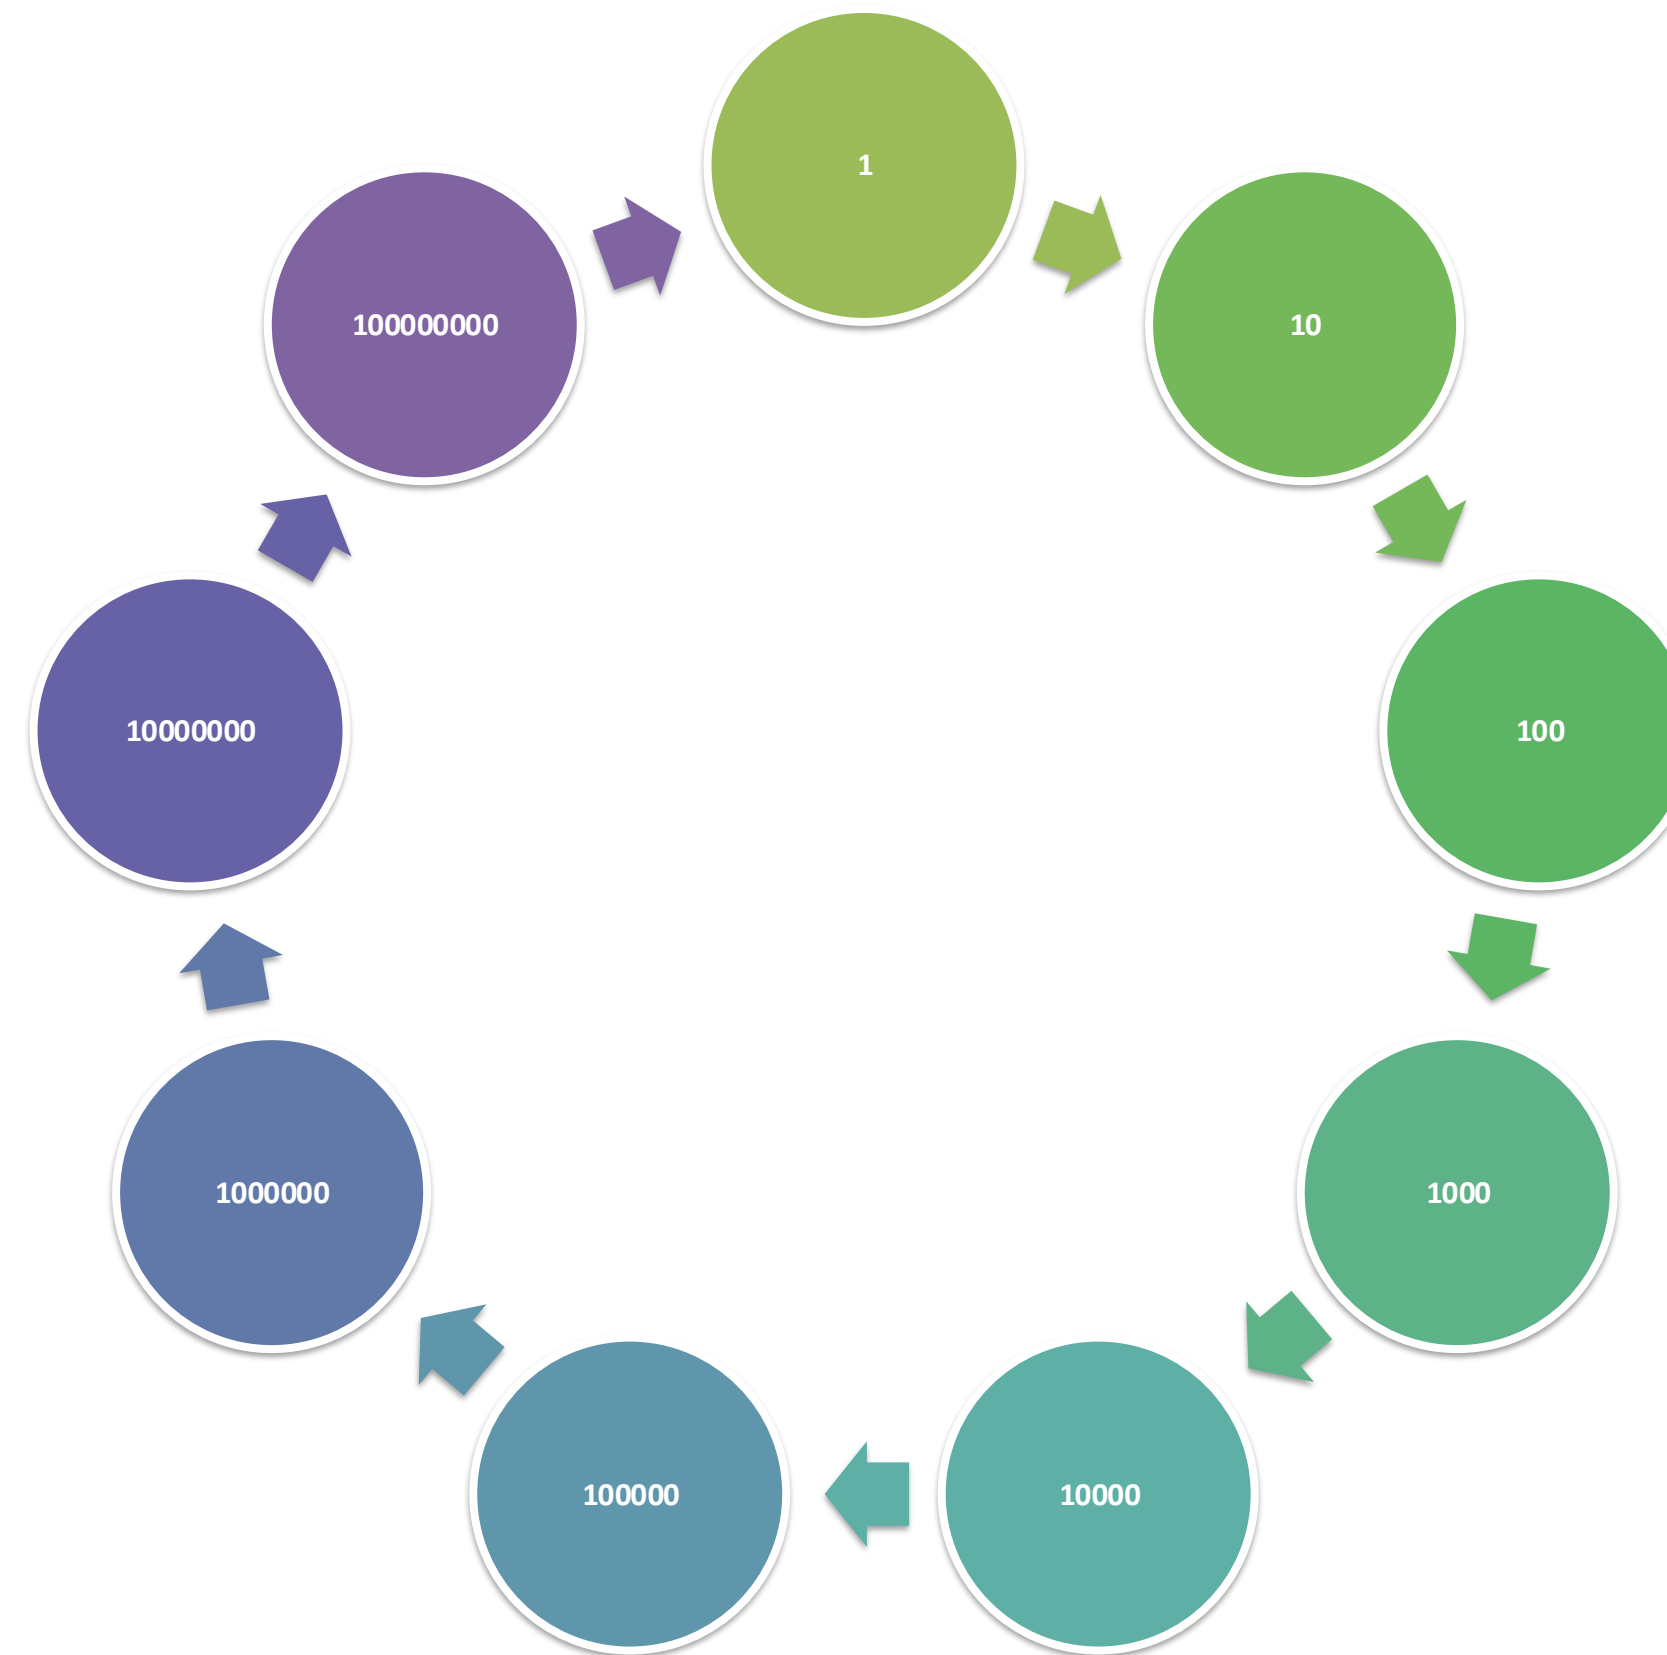

Because continuous recruitment becomes difficult.

Understanding Human Tagging Problem

1 Win : 10 Loose

The Solution : The Copyrighted Circle Advantage as Trade Tagging

HOW A DAM GENERATES ELECTRICITY

1 WATER IS STORED

Water is collected
and stored in
the reservoir.

2 WATER FLOWS

Water flows through
the dam with
pressure and force.

3 TURBINE TURNS

The flowing water
rotates the turbine.

4 ELECTRICITY IS GENERATED

The turbine drives
the generator and
produces electricity
for all.

**CONTINUOUS FLOW =
